

Interview Scorecard

One scorecard per candidate, per interview. Score independently, before any debrief discussion.

Candidate: _____ Role: _____

Interviewer: _____ Date: _____

Competency scores

Score each competency 1–5 against the rubric anchors. The evidence field is required — a score without observed evidence is not valid.

Competency	Score (1–5)	Evidence — what did the candidate say or do?
Problem solving		
Communication		
Ownership		
Adaptability		
Role-specific skill 1: _____		
Role-specific skill 2: _____		

Recommendation (complete last)

- ☐ Strong hire — evidence strong across all competencies
- ☐ Hire — evidence solid; note any watch areas below
- ☐ No hire — evidence weak on one or more core competencies
- ☐ Insufficient evidence — recommend an additional structured session

Watch areas / notes (behavioral observations only — no personality judgments):

Rules that protect the data

- Score during or immediately after the interview — never from memory the next day.
- Complete this scorecard BEFORE discussing the candidate with anyone.
- Describe behavior, not character: what was said and done, not what kind of person they seemed.
- Never note age, family status, accent, appearance, health, or any protected characteristic.
